

*The Covid-19 pandemic has had a tremendous impact on our campus and community. The people of UK Facilities Management remain the “boots on the ground” for UK, providing the essential services needed to keep our campus safe, secure, and positioned to respond to the evolving crisis. The strength each of you demonstrate daily is inspiring and represents such courage and compassion. We are in this together and we will get through it together. **Thank you for everything you do.** – Mary Vosevich, Vice President for Facilities Management*

OUR PEOPLE.

OUR STORIES.

Last week, in response to observations that adherence to mask requirement in public spaces was waning, **Facilities Management** partnered with UK Marketing to develop and install new ways of getting the message out. This stunning shot of the #MaskUpCats message at the W.T. Young Library was made possible by the talented work of **UK Athletics** in partnership with **UK Grounds**. Our teams also installed 15 large banners in prominent locations across campus. Tomorrow's Photo Friday will feature more pictures of campus signs and the teams making and installing them. Masks Up Cats!

Before

In early August our Medical Center Facilities Team received a work order to convert a space that had been used for food service into a vaccine clinic. This was an urgent request and the team had a deadline of September 15 to complete the work. Plant Manager **Tina Arthur** worked with Project Manager **Tomi Antic** to lead the effort and completed the work in record time. **Cecelia Yeary**, UKHC Operations Integration Director, had high praise for the team and their work, saying “Wow! Knowing what that looked like before I’m super impressed. Awesome.” **GREAT JOB TOMI, TINA, & TEAM!**
