

*The Covid-19 pandemic has had a tremendous impact on our campus and community. The people of UK Facilities Management remain the “boots on the ground” for UK, providing the essential services needed to keep our campus safe, secure, and positioned to respond to the evolving crisis. The strength each of you demonstrate daily is inspiring and represents such courage and compassion. We are in this together and we will get through it together. **Thank you for everything you do.** – Mary Vosevich, Vice President for Facilities Management*

## OUR PEOPLE.

## OUR STORIES.

Flu season is just around the corner and multiple UK partners are working hard on plans to provide no-cost flu vaccination options for the campus community. UK Administration has approved a plan to cover the cost or copay for all students, faculty, and staff whose insurance does not cover the vaccine 100%. The efforts kicked off with a free vaccination event for students (left) during last weekend's physically-distanced live watch party for the UK vs. Auburn football game at the Kentucky Proud Park (baseball). UK HealthCare Pharmacy will be leading the efforts to provide faculty and staff vaccinations through clinics and drive-through options. Additional details will be provided in the coming days through this newsletter and other Facilities Management and University communication channels. Please continue to safeguard yourself and our community against the spread of covid-19. Also make plans to get a flu shot.

Progress continues on the Library Drive Extension Project (left and center)! Last week the final coat of asphalt was completed and the adjacent sidewalks are also nearing completion. The sidewalk connecting Library Drive to Funkhouser Plaza (right) has reopened providing additional pedestrian connectivity in the area. This project is an important part of the University's efforts convert a section of Rose Street to a pedestrian-only zone.
