

*The Covid-19 pandemic has had a tremendous impact on our campus and community. The people of UK Facilities Management remain the “boots on the ground” for UK, providing the essential services needed to keep our campus safe, secure, and positioned to respond to the evolving crisis. The strength each of you demonstrate daily is inspiring and represents such courage and compassion. We are in this together and we will get through it together. **Thank you for everything you do.** – Mary Vosevich, Vice President for Facilities Management*

OUR PEOPLE.

OUR STORIES.

It takes a Team! On behalf of the UK Athletics and our VP **Mary Vosevich**, we want to thank everyone that helped prepare Kroger Field for the season opener. Our FM team had to make many changes to meet all the new requirements of the SEC Covid Rules. A very special thank you goes out to **Kenny Drury** and our **Grounds Department** for having all the concourses cleaned and ready for our fans. Since we did not have a Spring Game this year preparing for the home opener was a huge job, and **Kenny and his team** did a great job getting it ready. I know the outcome of the game was not what any UK Fan wanted, but Kroger Field was definitely ready for our team and our fans. Thanks again to **EVERYONE** that helped prepare for and work the game. **Go CATS and Go Facilities!!!** – Harold “Tree” Sandford

Lights, camera, action! Last Thursday morning **UK Grounds Manager Stacy Borden** represented **Facilities Management** by starring in two video projects. Both projects were documenting how FM is supporting the University's academic and research missions through the use of the campus as a living lab for our faculty and students. In the first (at right), Stacy joined UK HealthCare physicians and faculty to produce a video for UK HealthCare's leadership week detailing how our grounds and greenspaces can contribute to healing and recovery. In the second (at left), Stacy spoke with a documentary film maker about the role that UK Grounds played in the student-led effort to convert the field at the corner of Maxwell and Limestone into a pocket park.

DON'T FORGET YOUR DAILY SCREENINGS

Employees who come to campus for their work assignments are required to complete a COVID-19 screening, every day, seven days a week, regardless of how many days per week they come to campus. The daily screener is quick, easy, and takes less than 3-5 seconds if you don't have symptoms.

Any employee with an on-campus work assignment will receive a daily email with instructions for completing the screening. If you do not have regular access to email, your supervisor will provide a paper copy of the screen.
