

*The Covid-19 pandemic has had a tremendous impact on our campus and community. The people of UK Facilities Management remain the “boots on the ground” for UK, providing the essential services needed to keep our campus safe, secure, and positioned to respond to the evolving crisis. The strength each of you demonstrate daily is inspiring and represents such courage and compassion. We are in this together and we will get through it together. **Thank you for everything you do.** – Mary Vosevich, Vice President for Facilities Management*

OUR PEOPLE. ————— OUR STORIES.

October 25-31 is National Healthcare Facilities & Engineering Week. Each day this week, we will feature facilities and engineering projects led by UK Facilities Management’s Medical Center (FMMC) teams.

In a vacant lab on the third floor of the Medical Science Building (left), UK **Facilities Management Medical Center (FMMC)** project manager, **Tomi Antic** and superintendent **Ron Morris** worked with a combination of FMMC trade shops and contractors to completely renovate the outdated space (right) into a spacious and contemporary multi-office suite and kitchenette. **GREAT WORK TEAM!**

The steam kettles in the kitchen of Good Samaritan, Lexington’s oldest hospital, were in need of renovation and upgrade. Under the direction of UK **Facilities Management Medical Center** project manager **Josh Tarter** and superintendent **Eddie Spencer**, the rusted piping, valves, and steam traps were replaced and the original kettles were relocated to make way for new kettles. The equipment was also repositioned to better exhaust steam from the kitchen. **EXCELLENT WORK!**

PHOTO FRIDAY – TRICK OR TREAT?!

Halloween is Saturday, and it is one of my favorite holidays. Let’s fill our Photo Friday collage with your favorite pictures of costumes from this year or years past. Photos of costumed pets and children welcome! At left, my daughter and I from two years ago dressed as P.T. Barnum and Anne Wheeler from *The Greatest Showman*. Submit photos to shane.tedder@uky.edu by midnight tonight.
