

*The Covid-19 pandemic has had a tremendous impact on our campus and community. The people of UK Facilities Management remain the “boots on the ground” for UK, providing the essential services needed to keep our campus safe, secure, and positioned to respond to the evolving crisis. The strength each of you demonstrate daily is inspiring and represents such courage and compassion. We are in this together and we will get through it together. **Thank you for everything you do.** – Mary Vosevich, Vice President for Facilities Management*

## OUR PEOPLE.

## OUR STORIES.

At left, **Ricky Williams** installs a water fountain equipped with a bottle filling station in the Delta Sigma Pi Fraternity House at 321 Columbia Terrace. Due to the Corona virus pandemic, campus water fountains have been deactivated, but bottle filling stations remain active. More than 125 of these stations have been installed on campus since 2010 and Facilities Management is currently working to expand that number.

## FLU SHOTS ARE AVAILABLE FOR STAFF & STUDENTS

Flu shots are mandatory for students this year and students are required to receive the vaccinations by November 6. The shots are also available for free to all campus employees at several convenient locations across campus including UK Retail Pharmacies. If you have a UK Health Insurance Plan you can receive the shot at any retail pharmacy that offers flu shots. Make a plan to get your flu shot, and learn more about your options by visiting: [www.uky.edu/coronavirus/do-your-part/flu-shots/employee-flu-shots](http://www.uky.edu/coronavirus/do-your-part/flu-shots/employee-flu-shots)

Progress continues on the expansion of the Gatton Student Center. The three-story, \$25 million project on the east side of the building will expand the dining area and add spaces for student services. This project is made possible by generous funding support from the Bill Gatton Foundation and a partnership with UK Dining. The project is managed by FM's **Capital Projects Management Division**.
