

*The Covid-19 pandemic has had a tremendous impact on our campus and community. The people of UK Facilities Management remain the “boots on the ground” for UK, providing the essential services needed to keep our campus safe, secure, and positioned to respond to the evolving crisis. The strength each of you demonstrate daily is inspiring and represents such courage and compassion. We are in this together and we will get through it together. **Thank you for everything you do.** – Mary Vosevich, Vice President for Facilities Management*

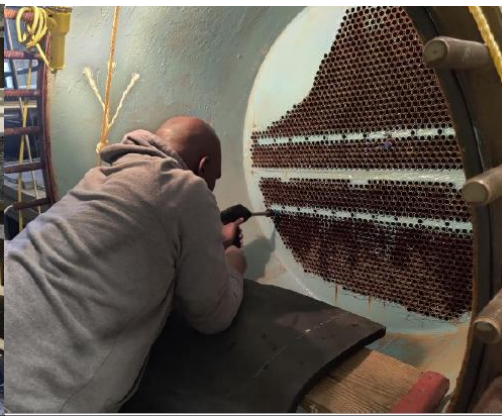

OUR PEOPLE. ————— OUR STORIES.

Facilities Management’s Utilities and Energy Management

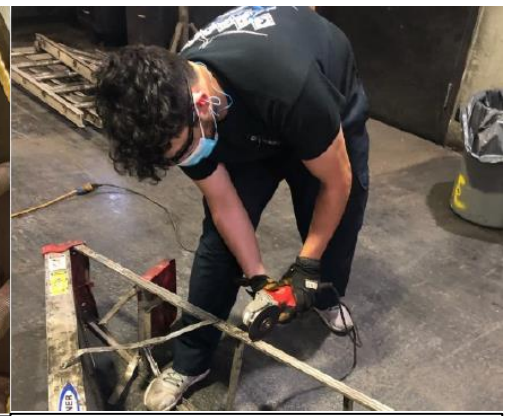

Facilities Management’s Utilities and Energy Management (UEM) division is responsible for the distribution of electricity, building automation, thermal comfort, energy conservation, the production and distribution of steam and chilled water, and the maintenance and operations of sanitary and storm sewer systems. Here are some snapshots of the UEM team at work last week (November 9-13).

Henry Huffines preparing to clean a tower sump.

Cooling #2’s resident marksman Cory Chenault shooting Chiller #6 tubs.

Med Center Heating and Cooling’s Cody Hopewell cuts up an unsafe ladder.

Brian Bayer repairing and replacing low voltage wiring and devices.

Central Boiler 32 received a tune-up and the installation of a new VFD device

The floor at the Central Utility Plant (CUP) gleaming after a recent cleaning
