

*The Covid-19 pandemic has had a tremendous impact on our campus and community. The people of UK Facilities Management remain the “boots on the ground” for UK, providing the essential services needed to keep our campus safe, secure, and positioned to respond to the evolving crisis. The strength each of you demonstrate daily is inspiring and represents such courage and compassion. We are in this together and we will get through it together. **Thank you for everything you do.** – Mary Vosevich, Vice President for Facilities Management*

## HUGE SHOUT OUT TO OUR CUSTODIAL STAFF!

From the early spring genesis of our response, to the first day of the fall semester, and continuing today, **Facilities Management's Custodial Teams** have been incredible and courageous in their dedication to the work of keeping our campus clean and safe. This has not been easy, and their contributions should not be easily overlooked. Our teams have learned to use new tools and adjusted their schedules and scopes of work. It is difficult to overstate the gratitude we owe this team of dedicated professionals. If you are on campus today, seek out a member of our custodial teams and say thanks (with a mask on and from at least six feet away, of course). Over the next few issues we will do a deeper dive into the work of these talented professionals. Above and below are a few of FM's Custodial teams getting it done.

## Photo Friday – Let it snow?

The return of snow flakes and below freezing temperatures this week inspired this week's Photo Friday theme. Submit your favorite pictures of snow! These can be campus shots, sledding, snowmen, etc...Anything with the frozen white stuff. **Huge shout out** to our **Grounds Teams** for keeping campus path's safe and to our **Utilities and Maintenance** teams for keeping campus buildings warm!
