

*The Covid-19 pandemic has had a tremendous impact on our campus and community. The people of UK Facilities Management remain the “boots on the ground” for UK, providing the essential services needed to keep our campus safe, secure, and positioned to respond to the evolving crisis. The strength each of you demonstrate daily is inspiring and represents such courage and compassion. We are in this together and we will get through it together. **Thank you for everything you do.** – Mary Vosevich, Vice President for Facilities Management*

OUR PEOPLE.

OUR STORIES.

UEM's Matt True and John Kunt replacing O-rings for fuel pumps

The week of November 21st presented a serious challenge for **Utilities and Energy Management**. All facets of the **UEM team** came together when a chemical and water leak shorted out our largest emergency power system. Executive Director **Xavier Rivera Marzan, Production, Energy Management, Distribution, High Voltage, Engineering**, Staggs & Fisher, ChemTreat, Dixon Electric, **Campus PPD**, and **Med Center PPD** averted a very serious electrical power and steam production situation. electrical back-up power for the hospital complex was restored quickly and the steam production never wavered. Thanks to all involved as everyone performed like Wildcats. Work is ongoing but special thanks to **Matt True, Eric Conner**, and **Charles Moberly** who performed under extreme pressure to get things back up and running.

UEM's **Steven Hughes** (left) has been named Acting High Voltage Manager in anticipation of the February 2021 retirement of **Moe Barati**. Steven also finished his Master's of Business Administration (MBA) last week. UEM helped Steven celebrate the MBA with a physically distanced 'party' (right) Huge congratulations to both **Steven** and **Moe** on these career milestones!

DON'T FORGET YOUR DAILY SCREENINGS

Employees who come to campus for their work assignments are required to complete a COVID-19 screening, every day, seven days a week, regardless of how many days per week they come to campus. The daily screener is quick, easy, and takes less than 3-5 seconds if you don't have symptoms.

Any employee with an on-campus work assignment will receive a daily email with instructions for completing the screening. If you do not have regular access to email, your supervisor will provide a paper copy of the screen.
