

OUR PEOPLE.

OUR STORIES.

Thank you. Thank you. Thank you.

Throughout 2020, we have faced incredible challenges and unprecedented changes. Thanks to all of you, Facilities Management has been able to meet those challenges and adapt to those changes. Thanks to your good work and support, the University of Kentucky could continue to provide the healthcare services our community needed and also continue the important mission teaching and research so critical to the future of our students and our communities. During the final week of this daunting year, the FM Daily will feature photos of our staff who have made this possible every day. Submit photos of your colleagues to Shane.tedder@uky.edu for inclusion. Note: Some of the photos received were taken prior to the start of the pandemic.
