***Facilities Photo Friday – GO CATS***

The Wildcat, known in the natural sciences as the bobcat (*Lynx rufus*), became the official mascot of the University of Kentucky in 1909. The nickname "Wildcats" became synonymous with UK shortly after a 6–2 football road victory over Illinois on October 9, 1909. Commandant Philip W. Corbusier, then head of the military department at old State University, told a group of students in a chapel service following the game that the Kentucky football team had "fought like Wildcats." June is also national adopt a cat month. Thanks for sending in your pictures. Go CATS!
