

OUR PEOPLE. ————— OUR STORY.

*The Covid-19 pandemic has had a tremendous impact on our campus and community. The people of UK Facilities Management remain the “boots on the ground” for UK, providing the essential services needed to keep our campus safe, secure, and positioned to respond to the evolving crisis. The strength each of you demonstrate daily is inspiring and represents such courage and compassion. We are in this together and we will get through it together. **Thank you for everything you do.** — Mary Vosevich, Vice President for Facilities Management*

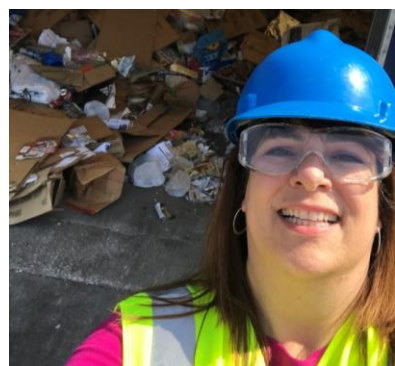

IT IS IMPERATIVE THAT WE MODEL THE BEHAVIORS THAT WILL HELP KEEP OUR COMMUNITY SAFE. As an employee of Facilities Management, you are expected to **practice social distancing** (including one employee per vehicle), **wear a mask**, and follow **all other safety protocols** communicated by your supervisors. It is also expected that you hold your direct reports and co-workers accountable for these practices. Our uniformed, front line professionals are some of the most visible and recognizable ambassadors of the University’s commitment to protecting our community. When we model the necessary public health practices, we not only prevent the spread of this virus, we also inspire confidence that our campus is safe and that we are doing everything we can to protect students, employees, patients and visitors. **Regardless of your personal opinions and views of these practices, this is an expectation of your employment.** If you have any questions, consult your supervisor. *At left, Jack Clopein repairs a flush valve while wearing appropriate PPE.*

BEFORE

The traveling road show featuring **Derek Butler, James McCann, and Clint McClaine** continues! In today’s episode of *Campus Facilities Before and After*, we get a look at the transformative work this team did in the courtyard of the Lucille Little Library. **Great work guys**, and thanks to Tree for sharing the pictures.

AFTER

Faces of Facilities – Esther Moberly

Esther manages the Waste, Recycling, and Trucking operations for Facilities Services. She was promoted to this position in 2017 after joining the University in 2015 as the Recycling Coordinator. Esther is originally from Puerto Rico, though she and her husband Jamie (Gatton Student Center) have lived in Central Kentucky since 1990. Their son, Ethan, graduated from West Jessamine High School earlier this month and will be attending Husson University in Maine this fall. Regarding UK’s response to the Covid-19 pandemic, Esther said, *“I have been impressed by the speed of our response and how quickly we continue to adapt and change.”*

**SEE BLUE (jeans)
SEE SERVICE**

This Friday, **Facilities Management**, is joining forces with **THE BIG BLUE PANTRY** to fight student hunger. If you bring a non-perishable food item to donate that day, you can wear blue jeans to work. More details will be provided later in the week and there will be a drive-by option for the folks working remotely to get them out of their pajamas.

PHOTO FRIDAY: Show off your shades

June is National Migraine and Headache Awareness month and June 21 is Migraine World Solidarity Day. In support of this cause, let’s show off our shades in this week’s Photo Friday collage. Submit pictures to shane.tedder@uky.edu by 5pm on Thursday, June 18.
