

## OUR PEOPLE.

## OUR STORY.

*The Covid-19 pandemic has had a tremendous impact on our campus and community. The people of UK Facilities Management remain the “boots on the ground” for UK, providing the essential services needed to keep our campus safe, secure, and positioned to respond to the evolving crisis. The strength each of you demonstrate daily is inspiring and represents such courage and compassion. We are in this together and we will get through it together. **Thank you for everything you do.** – Mary Vosevich, Vice President for Facilities Management*

### Facilities Management: A birds-eye view

For the past 3+ months, the FM Daily has featured stories highlighting the people and projects at the heart of our work to support the mission of the University of Kentucky. The graphic below provides some context for how those individuals and projects are connected through the organization of our division. In future issues, we will explore each of these major areas, the departments they contain, and their scope of responsibility. Thanks to **Phil Tackett** for the idea for this feature.

**The Cornerstone**, a new 900 space parking structure with ground floor retail and innovation space including the home for UK’s rapidly expanding eSports programs, makes the newsletter again today. Yesterday the University announced that the University of Kentucky Federal Credit Union had reached an agreement through UK’s multimedia rights partner JMI Sports for a naming rights partnership at the facility. The ***UK Federal Credit Union Esports Lounge and Theater*** will be the new home for UK’s burgeoning esports program and part of UK’s innovative plan to become a global leader in esports and higher education. The 13-year naming rights deal further enhances a relationship that began when the UKFCU was founded in 1937 by members of the UK College of Agriculture.

**WE WILL GET THROUGH THIS TOGETHER. WE ARE UK.**
