

*The Covid-19 pandemic has had a tremendous impact on our campus and community. The people of UK Facilities Management remain the “boots on the ground” for UK, providing the essential services needed to keep our campus safe, secure, and positioned to respond to the evolving crisis. The strength each of you demonstrate daily is inspiring and represents such courage and compassion. We are in this together and we will get through it together. **Thank you for everything you do.** – Mary Vosevich, Vice President for Facilities Management*

OUR PEOPLE. ————— OUR STORIES.

The great furniture move of July 2020 is underway! In order to meet campus physical distancing guidelines, thousands of pieces of furniture from our academic buildings have to be tagged, moved, and stored before the start of classes. **Space and Planning** is coordinating this monumental effort with help from **Utilities, Trucking** and **Custodial** staff. The teams started on Monday of this week by removing extra desks and chairs from the Whitehall Classroom Building.

Facilities Spotlight (Formerly Faces of Facilities)

Last week, **Steven Tyner-Wilson** passed the APPA Certified Educational Facilities Professional Exam, earning his CEFPP credentials. **Congratulations Steven!** Steven currently serves as the Manager of Renovations and as an Architect with PPD Planning, Design & Construction. His role is to guide customers into defining their preliminary scope, budget, and schedule on remodeling projects. He also works closely with the Office of Institutional Equity to ensure our projects are in ADA compliance. Steven started work at UK in 1996 under the tutelage of Bill Collins who never let him forget that engineers are the salvation of architects (ha!). Steven and his wife Melanie have been married for 44 years and are both very active in the community providing support, lectures and resources on the subject of autism/disabilities from a caregiver’s perspective.

How to wear a mask 101

Photo Friday – Life is a Beach!

Summer time has many of us day dreaming about the beach, especially since our ability to travel to our coasts this year is so deeply impacted by the pandemic. In this week’s photo collage, let’s share photos of our favorite shorelines (lake, beach, creek, etc) or a favorite photo taken by the water. Submit your photos to Shane Tedder at shane.tedder@uky.edu by midnight on Thursday.
