

OUR PEOPLE.

OUR STORIES.

# Signs, Signs, Everywhere There's Signs...

Our students start returning in increasing numbers next week. We wrap up July with a look at the Healthy Campus signage that the Facilities Management team has put out across the campus. This has been a true team effort. **The Sign Shop** has produced more than 30,000 signs to help our students, staff, faculty patients, and visitors navigate the campus safely. These were designed in partnership with **UK Marketing** to ensure consistent messages. **FIS, Space Planning, and Building Operators** have carefully mapped out where they are placed. And **members of every FM unit** have pitched in to help put them up. **HATS OFF TO EVERYONE INVOLVED. GREAT WORK!**
