

Photo Friday – Working Winter Break - Grounds

On Christmas eve this year (12/24) snow began to fall, leading to the first white Christmas in the Bluegrass in several years. While a treat for many, this event was a call to action for the Facilities Management **Grounds Team**. These professionals returned to campus to ensure that campus was open and safe for UK Healthcare patients, visitors and staff as well as all the other 24/7 activities at UK. Today's photo collage features members of our grounds team who answered that call. Many other areas worked continuously through the holiday break including the **Medical Center** and **Utilities and Energy Management**. **THANKS TO EVERYONE FOR YOUR DEDICATION OVER THE BREAK.**
