

*The Covid-19 pandemic has had a tremendous impact on our campus and community. The people of UK Facilities Management remain the “boots on the ground” for UK, providing the essential services needed to keep our campus safe, secure, and positioned to respond to the evolving crisis. The strength each of you demonstrate daily is inspiring and represents such courage and compassion. We are in this together and we will get through it together. **Thank you for everything you do.** – Mary Vosevich, Vice President for Facilities Management*

OUR PEOPLE. ————— OUR STORIES.

THANK YOU CUSTODIAL TEAMS!

Snow fell again overnight on our campus and **Facilities Management** once again added snow and ice removal to the list of tasks that must be done. Our **Custodial Teams** play a critical role in ensuring students, employees, patients, and visitors can safely access their campus destinations. When snow and ice hit, our custodians salt, shovel, and clear entrances, steps, and sidewalks adjacent to their buildings. So, thank you to our custodial teams and thanks to everyone putting in long hours to keep our campus safe during these winter conditions. The photos of building entrances below were taken earlier this morning ahead of the start of classes. **STAY SAFE EVERYONE!!**

PROTECT. RESPECT. DO YOUR PART.
