

*The Covid-19 pandemic has had a tremendous impact on our campus and community. The people of UK Facilities Management remain the “boots on the ground” for UK, providing the essential services needed to keep our campus safe, secure, and positioned to respond to the evolving crisis. The strength each of you demonstrate daily is inspiring and represents such courage and compassion. We are in this together and we will get through it together. **Thank you for everything you do.** – Mary Vosevich, Vice President for Facilities Management*

OUR PEOPLE. ————— OUR STORIES.

Facilities Snapshots – Quick updates on people and projects from across campus

Ray Stewart conducting weekly shower inspections using the new “Green Gobbler” in Gill Heart Institute

Custodians Donovan Pryor, Paul Yeary, and Matt Milligan clearing walks at the Student Center early Monday morning.

Resourceful temporary sidewalk, designed by UK Grounds, maintains ADA access to the King Science Library while protecting the tree.

Wayback Wednesday – The Miller Hall Drinking Fountain

Today’s look back at our Facilities picks up on an obscure and unique stonework in the lawn of Miller Hall. The small stone tower was originally a drinking fountain gifted to the University by the class of 1905. A brass lion head served as the fountain’s dispenser (left). The stone structure still stands in the lawn between Miller and Gillis although the lion fitting was removed some time ago.

Photo Friday – Celebrating our Students

For our photo collage this week, let’s feature the students working with us in Facilities Management. From internships to part-time jobs to pathways to meaningful careers, students have many roles within Facilities Management. Submit photos of students in your areas by midnight on Thursday, February 4 to shane.tedder@uky.edu. Thanks! At left, graduate assistants (Sustainability) Sophie Beavin and Carlie Laughlin help distribute yard signs earlier this semester.
