

*The Covid-19 pandemic has had a tremendous impact on our campus and community. The people of UK Facilities Management remain the “boots on the ground” for UK, providing the essential services needed to keep our campus safe, secure, and positioned to respond to the evolving crisis. The strength each of you demonstrate daily is inspiring and represents such courage and compassion. We are in this together and we will get through it together. **Thank you for everything you do.** – Mary Vosevich, Vice President for Facilities Management*

OUR PEOPLE.

OUR STORIES.

We have a winner! **Facilities Management Medical Center** launched a *Mechanical Room Pride Initiative* last fall and announced this week that Maintenance Supervisor **Srdan “Surge” Milosevic** led the winning team in the second round of the contest. This initiative was created in a competitive format to encourage maintenance supervisors and staff to clean-up mechanical spaces to make them safer and easier to troubleshoot and spot leaks or other issues. The Ben F. Roach Cancer Care Facility basement mechanical room had becoming a dumping ground for numerous projects over the years. The pictures of the mechanical room taken before the contest (above) and those taken after (below) speak to the tremendous work done by team members **Andriy Severyn, Gregg Bowling, Dieuseul Philizaire, Sherman Cowans, Kevin Turner, Ricky Parsons, and Tracy Burden**. CONGRATULATIONS to Surge and Team and thanks to all the teams that participated in the second round of the contest!

Eddie Ellis, Supervisor of Annex Maintenance, helped clean up 16 salt spreaders, multiple shovels, and one snow blower. Ready for the next one! Kudos to Eddie and his drive to keep things clean and operational after a pretty bad month of inclement weather. Submitted by **Matt Mueller**.
