

*The Covid-19 pandemic has had a tremendous impact on our campus and community. The people of UK Facilities Management remain the “boots on the ground” for UK, providing the essential services needed to keep our campus safe, secure, and positioned to respond to the evolving crisis. The strength each of you demonstrate daily is inspiring and represents such courage and compassion. We are in this together and we will get through it together. **Thank you for everything you do.** – Mary Vosevich, Vice President for Facilities Management*

OUR PEOPLE. ————— OUR STORIES.

Student Spotlight: Joshua Anderson, Utilities and Energy Management

Joshua is one of three new student employees on boarded by UEM in January of 2021. The interview below was first published in UEM’s weekly update on February 10. **Welcome to Facilities Management, Joshua!**

I am a mechanical engineering student although I will be graduating in May and will be pursuing an MBA degree at UK. I previously worked as a co-op at CMTA INC in the Lexington area which is a MEP consulting firm. Before returning to an academic setting, I was in the Air Force for six years. I come from a rather large family. I have five sisters and two brothers of which I am the youngest and the only without children of my own. As for hobbies, I really enjoy working out, playing volleyball (I

played for the men’s volleyball club team during my first year at UK), disc golf, and cards game like spades or hearts. I enjoy traveling and would love to see as many countries as I can.

Shout out to the **UK Grounds Arboriculture Team** for helping coordinate the planting of this Japanese Pagoda, also known as a scholar tree, in the courtyard of the Plant and Soil Science Building. The tree was planted in memory of a beloved faculty member who passed away in December. Friends and colleagues gathered last Friday for a memorial service.

Remember to #MaskUpCats!

Chili and Pepper (Tim Clark)

George (Mary Vosevich)

Willie (Angela Walton)
