

OUR PEOPLE.

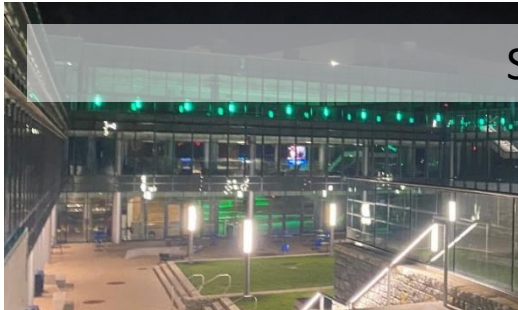

OUR STORIES.

## Photo Friday – A Look Back

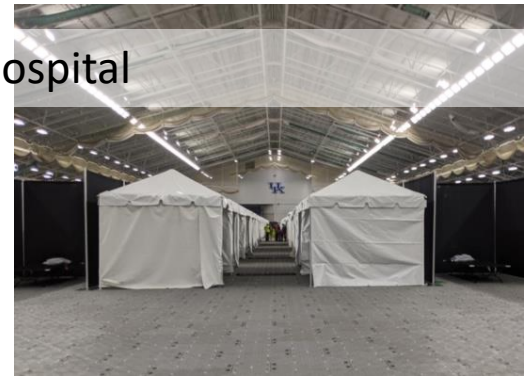

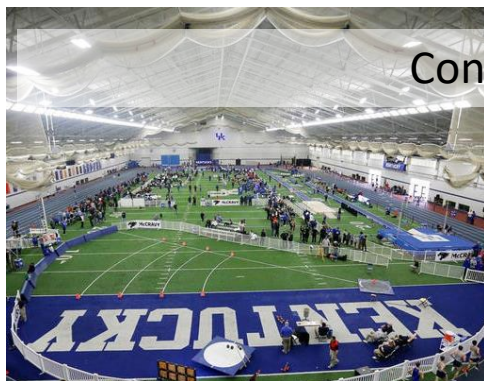

The adjectives used to describe this past year all fall short of capturing the difficulties and change we have experienced. Perhaps the most appropriate (and commonly used) is unprecedented. Simply put, we have never been through anything like this. All that said, the work of this Facilities Management team has been incredible, a remarkable legacy really, one we will all tell stories about for the rest of our careers. I have combed back through the FM Daily for some of the images that we may recall when we tell these stories.
