

*The Covid-19 pandemic has had a tremendous impact on our campus and community. The people of UK Facilities Management remain the “boots on the ground” for UK, providing the essential services needed to keep our campus safe, secure, and positioned to respond to the evolving crisis. The strength each of you demonstrate daily is inspiring and represents such courage and compassion. We are in this together and we will get through it together. **Thank you for everything you do.** – Mary Vosevich, Vice President for Facilities Management*

## OUR PEOPLE. ————— OUR STORIES.

The FMD is one year old! The very first issue of the “FMD” (right) was distributed on March 25, 2020. Since then, we have used this outlet to share the stories of the people and projects of Facilities Management on a daily basis: more than 700 individual stories highlighting our work on this campus. You can revisit the other 244 issues on the archive website ([www.uky.edu/sustainability/FacilitiesDaily](http://www.uky.edu/sustainability/FacilitiesDaily)). The 45 PHOTO FRIDAY Editions are highlighted on that site and easy to find. The FMD is going to take a “Spring Break” but will be (way) back next Wednesday, March 31.

Mark Wiggam and Tim Armstrong with Facilities Management’s Planning Design and Construction Unit have worked closely with a team of Faculty and Students from multiple colleges and programs on the renovation of the Campus Kitchens space in the Funkhouser Building (right). The space, which had been set up primarily as a classroom, will now include a dining area and food preparation facility and will serve as a hub for volunteer efforts to address food insecurity on campus. A grand reopening of the space is happening today. Thanks to Tim and Mark for supporting this interdisciplinary effort to address a very important barrier to student success.
