

*The Covid-19 pandemic has had a tremendous impact on our campus and community. The people of UK Facilities Management remain the “boots on the ground” for UK, providing the essential services needed to keep our campus safe, secure, and positioned to respond to the evolving crisis. The strength each of you demonstrate daily is inspiring and represents such courage and compassion. We are in this together and we will get through it together. **Thank you for everything you do.** – Mary Vosevich, Vice President for Facilities Management*

OUR PEOPLE. ————— OUR STORIES.

Utilities and Energy Management continues the work of preparing campus for cooling season. Above, **Cody Hopewell, Medical Center Cooling**, “shooting tubes” in chiller number 4. *Shooting tubes* refers to the maintenance practice of removing biological growth and corrosion from the inside of chiller tubes.

*“We know spring has arrived when it’s opening day for Baseball. **Jim Hamilton, Campus Preventive Maintenance Manager**, has been waiting all winter to show support for his favorite team.” -James Blackwell*

An important #MASKUP reminder from the FMD Archive:

Chili and Pepper (Tim Clark)

George (Mary Vosevich)

Willie (Angela Walton)

Moose (Ronald Morris)

DON'T FORGET YOUR DAILY SCREENINGS

Employees who come to campus for their work assignments are required to complete a COVID-19 screening, every day, seven days a week, regardless of how many days per week they come to campus. The daily screener is quick, easy, and takes less than 3-5 seconds if you don't have symptoms.

Any employee with an on-campus work assignment will receive a daily email with instructions for completing the screening. If you do not have regular access to email, your supervisor will provide a paper copy of the screen.
