

*The Covid-19 pandemic has had a tremendous impact on our campus and community. The people of UK Facilities Management remain the “boots on the ground” for UK, providing the essential services needed to keep our campus safe, secure, and positioned to respond to the evolving crisis. The strength each of you demonstrate daily is inspiring and represents such courage and compassion. We are in this together and we will get through it together. **Thank you for everything you do.** – Mary Vosevich, Vice President for Facilities Management*

OUR PEOPLE.

OUR STORIES.

Anyone who has tried it knows that giving a cat a bath isn't easy. So here's a big shout out to **Derek Butler, Keith Dumas, and Clint McMaine** for their excellent work cleaning up Bowman and his plaza! Pictures and shout out submitted by **Harold Sandford**.

Did You Know?

A special series this week in honor of the 51st Earth Day (April 22, 2021)

Did you know that UK **Facilities Management's Capital Projects** team has managed the construction of more than 25 buildings that have received LEED Certification from the US Green Building Council? LEED stands for Leadership in Energy and Environmental Design and certification is awarded based on points earned for building design that prioritizes environmental stewardship and human health across a range of construction areas including energy and water use, material selection, and indoor air quality. UK's first LEED certified building was the Davis Marksbury Building which opened in 2010 and our most recently certified project was the Kentucky Proud Park (left) which received certification last summer. More than 15% of our indoor spaces have received this certification over the past decade.
