

*The Covid-19 pandemic has had a tremendous impact on our campus and community. The people of UK Facilities Management remain the “boots on the ground” for UK, providing the essential services needed to keep our campus safe, secure, and positioned to respond to the evolving crisis. The strength each of you demonstrate daily is inspiring and represents such courage and compassion. We are in this together and we will get through it together. **Thank you for everything you do.** – Mary Vosevich, Vice President for Facilities Management*

OUR PEOPLE. ————— OUR STORIES.

Our **Grounds Team** took advantage of yesterday’s incredible weather to complete the installation of a new design in the beds around Barker Plaza at the Gatton Student Center. The installation - which consisted of day lilies, northwind switchgrass, and hedgehog aronia - was designed to complement the existing trees by **FIS’s Maureen Dreckman**, a graduate of UK’s Landscape Architecture Program. At left (from left to right) **Hanna Roberts, Michael Barnes, and Josh Borgemenke** work on laying out the pots prior to planting. The team received a welcome surprise when two students asked if they could help with the planting! At right, **Eli Tiller** (Natural Resources and Environmental Science major) and **J.T. Reagor** (Computer Science and Mathematics) plant daylilies while Josh, and Michael and Ray Cortez prep the holes.

Before

Big shout out to **Facility Management’s Medical Center** team for a great job coordinating a cleaning of the exterior of the Dorothy Enslow Combs Cancer Research Building. Contracted work was coordinated by **Matt Mueller and team.**

After

Celebrating the **Grit & Resilience** of our **UK Community** in the face of COVID-19.

THANK

 KENTUCKY!
